FOR IMMEDIATE RELEASE

Optergy Sponsors AIRAH WA Energy Metering and Management Presentation

Live discussion on the essential elements of Energy Metering and Management

Sydney, NSW (May 01) - **Optergy**, a software provider of building automation and energy management tools, are proud sponsors of the AIRAH WA presentation on Energy Metering and Management. The presentation will take place on Tuesday June 20, at the State Library of WA, 25 Francis St, Northbridge **Great Southern Room, fourth floor.**

97% of sub-metering systems have errors and report incorrect information. How is it that we can get these systems so wrong and what can we do to fix them?

The 'Energy Metering and Management' presentation offers attendees discussion covering essential aspects of energy metering and management:

- Rob Engelbrecht (Affil. AIRAH, Aquip Systems Sales Engineer) will discuss how ultrasonic flow meters are being used as thermal-energy meters for main chiller systems, the economics for retrofitting existing building, and the latest in sub-metering ultrasonic meters to provide a total solution for thermal-energy metering projects.
- Nicholas Heydon (Affil. AIRAH, Optergy Australasian Channel Manager) will look into why we can get these metering systems so wrong, and what we can do to fix them.

The presentation details are as follows:

Date: 20 June, 2017

Programme: 4pm registration | 4.15pm start - 5.20pm | Followed by light refreshments

Cost: Free - Members / \$60.00 - all other attendees

Registration information -

RSVP: 19 June | You must be registered to attend. Download the registration form [here](#).

Email your completed registration form to catherine@airah.org.au
