FOR IMMEDIATE RELEASE

OPTERGY NOMINATED AS FINALIST FOR CONTROLTRENDS AWARDS 2017

Finalists have been announced for Top Controls Industries Awards

Seattle, Washington (December 05, 2017) – Optergy, a software provider for smart energy monitoring and control, are proud to announce we have been nominated as the finalist in a number of categories for the 2017 ControlTrends Awards.

Now in its sixth year, the ControlTrends Awards (CTA) celebrates global companies, products, solutions, technology, and individuals in the controls industry, recognizing the latest innovations and achievements that make the HVAC, Controls, and Building Automation industries successful.

“We are honored to be recognised in these categories amongst other well-respected industry organisations,” said Steven Guzelimian, president of Optergy. “Optergy takes product development very seriously and the nominations are an attestation of our building and energy management solution’s growing global popularity.”

We are excited to be nominated in the following categories:

- Building Automation Plant/Equipment Controller of the Year
- Energy Savings Solution Product of the Year
- Race to the Small Space Solution of the Year
- Innovative Product of the Year
- Building Automation and Control System of the Year
- HVAC, Building Automation, or IoT Solutions Trainer of the Year - Akos Horogh
- Best Technical Support Person - Small Manufacturer - Marc Abdelahad
- Best Technical Support Company - Small Manufacturer
- The Professionalism, Integrity, and Dedication (PID) Award - Steven Guzelimian
- ControlTrends Executive of the Year - Small Manufacturer - Steven Guzelimian
- ControlTrends Vendor of the Year - Small Manufacturer
- ControlTrends Most Impactful Marketing Collateral
- IoT Smart Building Solution of the Year
